CH no.	COLOUR / FROST / GOBO	Instruction
11 Thru 22	L201	A open fan spread across the stage. Focus slightly more to downstage.

CH no.	COLOUR / FROST / GOBO	Instruction
31 thru 36	L763 or L103	A open fan spread across the stage (coming from an angle). Focus slightly more to downstage.

CH no.	COLOUR / FROST / GOBO	Instruction
41	L202	Top on show decks on SR, coming from portaalbrug

CH no.	COLOUR / FROST / GOBO	Instruction
42	L202	High side coming from the zijbrug and lighting all the upstage show decks on SL. Clean any light that might spill on "vries".

CH no.	COLOUR / FROST / GOBO	Instruction
46	L134	Top/special for tower on downstage left, coming from the portaalbrug.

CH no.	COLOUR / FROST / GOBO	Instruction
51 thru 55	L136 + R119	Warm front wash coming from the furthest "zaalbrug". Focus profiles sharp to the shutter and make 5 rectangles that are 1/5 of the size of the stage (in their width). Make sure each profile side cut gently touch each other. Cover full depth of the stage with each profile. Once well focused and locked off, drop colour and frost. *Once the frost is in, clean spills over audience and proscenium arch.

CH no.	COLOUR / FROST / GOBO	Instruction
56 thru 60	L197	Divide the stage in 5 with the fresnels (from the closest bridge). Cover the full depth of the stage with each. Use long barndoors to make the cut (SR>SL) and with smaller barndoors clean spills.

CH no.	COLOUR / FROST / GOBO	Instruction
71 + 72	L202 Breakup gobo	Focus profile as wide as possible, sharp to the gobo. 71 covers SL and 72 SR (they are crossed) Use blades to clean spills on "potten" and create a more squared line on downstage.

CH no.	COLOUR / FROST / GOBO	Instruction
77+78	L151 Breakup gobo (large holes)	Focus profile as wide as possible, sharp to the gobo. 77 covers SR and 78 SL Use blades to clean spills on “potten” and create a more squared line on downstage.

CH no.	COLOUR / FROST / GOBO	Instruction
81+82	L068	High cross/wash from manteau.

CH no.	COLOUR / FROST / GOBO	Instruction
83+84	L197	High cross/wash from manteau.

CH no.	COLOUR / FROST / GOBO	Instruction
85	L151	High side on SL, clean floor.

CH no.	COLOUR / FROST / GOBO	Instruction
86	L763 or L103	High side on SL, clean floor.

CH no.	COLOUR / FROST / GOBO	Instruction
87+88	R132	Wide as possible and sharp to the shutter. Create a corridor that runs all the way from SR<>SL. Width: from the proscenium arch line to the first deck DSR. Once focus, from frost.

CH no.	COLOUR / FROST / GOBO	Instruction
89+90	L201 Interlocking Gobo	As wide as possible and sharp to the gobo. 89 covers the SL half and 90 covers SR half. Lines of the gobo run US<>DS

CH no.	COLOUR / FROST / GOBO	Instruction
91	R132 Windy clouds gobo	As wide as possible and sharp to the gobo.

CH no.	COLOUR / FROST / GOBO	Instruction
301 thru 305	L750 (frost)	Low horizon. First align ch303 centred and bundle barely touching the floor. Then spread the rest accordingly in a way that there isn't much of a gap between bundles.

CH no.	COLOUR / FROST / GOBO	Instruction
306 + 307		Low sides (shins). Lamps about 20cm from the floor.
